

# MATERIALS ENGINEERING AND NANOTECHNOLOGY (LM76)

(Lecce - Università degli Studi)

## Teaching BIOMATERIALS

GenCod A003986

**Owner professor** LEONARDO LAMANNA

### Reference professors for teaching

SANOSH KUNJALUKKAL  
PADMANABHAN, LEONARDO  
LAMANNA

**Teaching in italian** BIOMATERIALS

**Teaching** BIOMATERIALS

**SSD code** ING-IND/22

**Reference course** MATERIALS  
ENGINEERING AND

**Course type** Laurea Magistrale

**Credits** 9.0

**Teaching hours** Front activity hours:  
81.0

**For enrolled in** 2022/2023

**Taught in** 2023/2024

**Course year** 2

**Language** ENGLISH

**Curriculum** MATERIALS FOR  
BIOMEDICAL APPLICATIONS

**Location** Lecce

**Semester** Second Semester

**Exam type** Oral

**Assessment** Final grade

**Course timetable**

<https://easyroom.unisalento.it/Orario>

## BRIEF COURSE DESCRIPTION

The aim of the course is to provide students with basic knowledge on the design of medical devices for given applications, from biomaterial choice to manufacturing technologies. Particular attention is given to the development of the following devices: a) artificial prostheses; b) scaffolds for regenerative medicine and tissue engineering; c) devices for controlled drug release.

## REQUIREMENTS

Basic knowledge on polymer science and technology is suggested.

## COURSE AIMS

This course aims to highlight the properties of biomaterials affecting their performance as medical implants, scaffolds for tissue engineering and drug delivery devices. At the end of the course, students are expected to:

- understand the physiological response to medical implants;
- know the principles of scaffold design and related manufacturing technologies;
- know the principles of drug delivery design;
- identify the most suitable biomaterial(s) for given applications;
- know the methods for bulk and surface characterization of biomaterials.

## TEACHING METHODOLOGY

The course includes lectures, lab experiences and seminars on selected topics.

## ASSESSMENT TYPE

Final exam will consists of an oral interview, during which the student is expected to show complete knowledge and comprehension of the topics of the course.
